Umbrella unit of 170 MSME bodies formed

As many as 170 industry associations have joined hands to form All-India Council of Association of MSMEs (AICA) in order to deal with issues of the sector hit hard by the pandemic. "AICA today announced that 170 industry associations have joined together to address post Covid issues faced by two lakh MSMEs across India," AICA said in a statement. It said the pandemic has affected every industry.

High raw material prices threaten survival of MSMEs

Industry group urges nil duty on import of steel materials

SPECIAL CORRESPONDENT
COIMBATORE

A steep increase in raw material prices in the last few months threatens the survival of micro, small and medium enterprises (MSMEs) in the manufacturing sector, the All India Council of Associations of MSMEs said.

The council, which has about 170 MSME associations from different States as its members, pointed out that copper prices had increased by 110% this month compared with April last year. Prices of aluminium alloy had risen 94%, mild steel plates by 82% and CRCA sheets by 96%.

The MSMEs faced working capital erosion because of the high cost of inputs. While the units supplying to public sector undertakings (PSUs) were unable to get a revision in prices of their products, the open market was unable to take the full impact of high raw material prices, the council said.

“In spite of a drop in demand due to lockdown, prices are on the upswing, particularly steel, pig iron and other raw materials,” the group said in a release on Wednesday.

It urged the government to set up a mechanism to ensure raw-material-price-stability for MSMEs. The PSUs should allow MSMEs to cancel orders without imposing a penalty and permit them to quote revised prices. The government should also allow import of all steel materials based on cost and quality requirements at nil duty and ban export of iron ore and steel products, it added.

170 MSME bodies join hands at AICA

TIMES NEWS NETWORK

Kolkata: All India Council of Association (AICA) of MSMEs (micro, small & medium enterprises) has announced that 170 industry associations have joined hands to address post-Covid issues faced by two lakhs MSMEs across India.

MSMEs add to approximately 30% of the overall employment generated in India. These MSMEs add approximately 30% of the overall GDP of the country.

Vijay Beriwal, executive member, AICA, pointed out that the pandemic has affected every industry in the country and MSMEs are hit the most due to frequent lockdowns. From manpower to raw materials, prices have been posing challenges to their existence.

Speaking on the joint effort of All India Council of Associations of MSMEs, he said, "We have been working on combining these associations under one umbrella since the first lockdown was imposed by the Government of India. We have been able to bring in 170 industry associations under one roof across

the country. We have started the consultations with every association and we are soon planning to highlight the challenges faced by different sectoral MSMEs. We will be sharing the draft recommendations with the ministries concerned to look into the low points and address the issues."

Elaborating the problems, Beriwal pointed out that the Centre had auctioned iron ore mines 110 million tonne annual production last year out of which 50% (with JSW, Arcelor who have their captive consumption) are only operational and rest are shut. He feels that the Centre should immediately take necessary steps to start the production in those mine.

He also suggested that iron ore fines below 55% and pellets are exempted from export duty whereas pellets made from iron ore fines over 55%, wherein process of making pellets does not involve any value addition. "This is exported which creates shortage as well as loss to the government exchequer. Hence pellets should have 30% export duty," he added.

MSME body urges PM to 'rein in raw material prices'

New Delhi: An umbrella association for micro, small and medium enterprises has written to Prime Minister Narendra Modi seeking "urgent steps" to rein in prices of raw materials like steel, copper, aluminum alloy and PVC "at once."

The All India Council of Association of MSMEs (AICA), representing about 170 MSME associations, claims the spike in prices of these raw materials, though temporary in nature, can cause "permanent damage" to the sector. The association suggested some measures to overcome this issue. **ENS**

PLEA TO PM

MSMEs worried over rising raw material costs

EXPRESS NEWS SERVICE
@ Chennai

THE rise in prices of steel, iron ore, aluminum, copper, plastics, paper and other raw materials has sparked concern among the MSME sector as they have sought the intervention of Prime Minister Narendra Modi.

All India Council of Association of MSMEs, created by around 170 MSME associations covering approximately 2,00,000 industries pan-India, stated in a release that steel and other base material manufacturers are declaring 10 to 20 times higher profit whereas MSMEs are on the verge of extinction. This clearly shows that corporate and public sector unit commodity companies are profiting at the expense of MSMEs.

“This volatile situation is temporary in nature, however can cause permanent damage to the MSME sector. In spite of a drop in demand due to lockdown, prices are in upswing, particularly steel, pig iron and other raw materials too. It is obvious there is a cartel created by steel manufacturers, which include both private and public sector undertakings. Steel is an essential commodity for overall development of the country and exports should be as per availability of surplus,” said a release.

AICA has urged the Union government to allow National Small Industries Corporation Limited (NSIC) to hedge steel for all MSMEs. “They should be in a position to consolidate and hedge overall steel quantity in the market place. This kind of hedging should be possible for a period of one year (as rate contract extends for a year). NSIC should make bulk bookings of steel at a price with the option of taking deliveries within 12 months as fixed,” AICA said in a statement.

Similarly, public sector units like Steel Authority of India and Vizag Steel should focus on MSMEs for supply of materials on priority basis and all steel industries should allocate at least 40 per cent of their production for Indian MSMEs, the release added.

प्रधानमंत्री से हस्तक्षेप की मांग की गई

नई दिल्ली। सूक्ष्म, लघु एवं मध्यम उद्यमों के संघों की प्रमुख संस्था एआईसीए ने इस्पात, लौह अयस्क, एल्यूमीनियम, तांबा, प्लास्टिक और कागज जैसे कच्चे माल की बढ़ती कीमतों के मामले में प्रधानमंत्री नरेन्द्र मोदी से हस्तक्षेप की मांग की है।

एमएसएमई संगठन की कच्चे माल के बढ़ते दाम को लेकर प्रधानमंत्री से हस्तक्षेप की मांग

नई दिल्ली, (भाषा)। सूक्ष्म, लघु एवं मध्यम उद्यमों के संघों की प्रमुख संस्था एआईसीए ने बुधवार को इस्पात, लौह अयस्क, एल्यूमीनियम, तांबा, प्लास्टिक और कागज जैसे कच्चे माल की बढ़ती कीमतों के मामले में प्रधानमंत्री नरेन्द्र मोदी से हस्तक्षेप की मांग की है।

कोरोना वायरस महामारी से सबसे ज्यादा प्रभावित एमएसएमई उद्योग ने हाल ही में आल इंडिया काउंसिल आफ एसोसियेशन आफ एमएसएमई (एआईसीए) का गठन किया है। इस परिषद में 170 के करीब उद्योग संघों ने हाथ मिलाया है। प्रधानमंत्री को भेजे एक ज्ञापन में एआईसीए ने इस्पात, लौह अयस्क, एल्यूमीनियम, तांबा, प्लास्टिक्स, पीवीसी, कागज और रसायन जैसे कच्चे माल के दाम में भारी वृद्धि के चलते कार्यशील पूंजी में कमी और औद्योगिक इकाइयों के समक्ष खड़ी चुनौती का जिक्र किया है। एआईसीए ने कहा है, हमारा मानना है कि मौजूदा उतार चढ़ाव स्थिति का

स्वरूप अस्थायी है। लेकिन यह एमएसएमई क्षेत्र के लिये स्थायी नुकसान का कारण बन सकती है। लॉकडाउन के दौरान मांग में कमी के बावजूद दाम बढ़ रहे हैं। खासतौर से इस्पात, लौह पिंड उद्योग 10 से 20 गुणा अधिक मुनाफा घोषित कर रहे हैं जबकि एमएसएमई उद्योग बंदी की कगार पर है। संगठन ने मौजूद संकट की स्थिति से निकलने के लिये आठ बिंदुओं का सुझाव दिया है। इसमें कुछ अवधि के लिये दाम बढ़ने से बचाव के उपाय, सार्वजनिक क्षेत्र के उपक्रमों को जुर्माने अथवा काली सूची में डालने की कार्रवाई किये बिना एमएसएमई से आर्डर निरस्त होने को स्वीकार करने और एमएसएमई के लिये रियायती दाम पर कोट तय किये जाने जैसे उपाय शामिल हैं। इसके साथ ही संगठन ने लागत और गुणवत्ता आवश्यकताओं के अनुरूप सभी इस्पात सामग्री के शून्य शुल्क पर आयात की अनुमति दिये जाने साथ ही डंपिंग रोधी शुल्क नहीं लगाने का भी सुझाव दिया है।

छोटे उद्यमों का बड़ा संकट

सरज कुमार

बाजार के मौजूदा हालात में एमएसएमई पर बकाया कर्ज के एनपीए होने का भी खतरा बना हुआ है। इस साल मार्च में फिक्की और इंडियन बैंक एसोसिएशन की तरफ से बैंकों के बीच किए गए एक सर्वे में चौरासी फीसद प्रतिभागियों ने एमएसएमई क्षेत्र से एनपीए में वृद्धि होने की आशंका जताई है।

सूक्ष्म, लघु और मझौले उद्यम (एमएसएमई) अर्थव्यवस्था की रीढ़ कहे जाते हैं। यानी अर्थव्यवस्था की मजबूती के लिए एमएसएमई का मजबूत होना अनिवार्य है। लेकिन भारत में अर्थव्यवस्था की रीढ़ यानी एमएसएमई कमजोर, कुपोषित और उपेक्षित है। अर्थव्यवस्था पर इसका असर स्पष्ट तौर पर दिख भी रहा है। जब भी कभी किसी इंटके से कमजोर रीढ़ हिलती-डुलती है, अर्थव्यवस्था निडाल-सी पड़ी दिखाई देती है। नोटबंदी, जीएसटी और अब कोरोना महामारी के इंटके इसके उदाहरण हैं। लेकिन अर्थव्यवस्था के इस कमजोर क्षेत्र को मजबूत करने के लिए अभी तक काम कम, बातें ही अधिक हुई हैं। कमजोर, कुपोषित और उपेक्षित श्रेणी के ऐसे उद्यमों की संख्या देश में कोई छह करोड़ तैतीस लाख है और युरी हालत में भी ये देश के सकल घरेलू उत्पाद (जीडीपी) में लगभग तीस फीसद का योगदान करते हैं। देश की पैतालीस फीसद से अधिक

श्रमशक्ति यहां रोजगार पाती है। यदि अर्थव्यवस्था के इस क्षेत्र को थोड़ा मजबूत कर दिया जाए तो देश की तस्वीर बदल सकती है।

सरकारी परिभाषा में एमएसएमई का निर्धारण निवेश राशि और कारोबार राशि की सीमा से होता है। एक करोड़ रुपए तक निवेश और पांच करोड़ रुपए तक सालाना कारोबार करने वाला उद्यम सूक्ष्म श्रेणी में आता है। वहीं दस करोड़ रुपए तक निवेश के साथ पचास करोड़ रुपए तक सालाना कारोबार करने वाले उद्यम को लघु श्रेणी में रखा गया है। जबकि पचास करोड़ रुपए तक निवेश और सालाना ढाई सौ करोड़ रुपए तक का कारोबार करने वाले उद्यम को मध्यम श्रेणी का माना जाता है। यानी ढाई सौ करोड़ रुपए कारोबार के बाद कारपोरेट जगत की सीमा शुरू हो जाती है।

एमएसएमई क्षेत्र के उद्यम कई सारी चुनौतियों का एकसाथ सामना करते हैं। इनमें भी सूक्ष्म उद्यमों की चुनौती ज्यादा बड़ी है। कई बार तो सूक्ष्म उद्यम किसी एक उद्यमी द्वारा संचालित किए जाते हैं। मजदूर से लेकर मैनेजर तक की भूमिका एक अकेला व्यक्ति ही निभाता है। ये उद्यमी कम पढ़े-लिखे होते हैं और आधुनिक प्रौद्योगिकी, आधुनिक बाजार की रीति-नीति से अपरिचित होते हैं। ऐसे उद्यम वित्तीय समस्या, प्रौद्योगिकीय समस्या, कुशल श्रमिकों की अनुपलब्धता और उत्पादों के विपणन की समस्या से जूझते रहते हैं। इन तमाम समस्याओं के कारण ये उद्यम उस गुणवत्ता के उत्पाद नहीं बना पाते, जिस गुणवत्ता के उत्पाद बड़े उद्यम बनाने में सक्षम होते हैं। सूक्ष्म उद्यमों के उत्पाद महंगे भी होते हैं। पूंजी के अभाव में ये अपने उत्पादों का बाजार में प्रचार-प्रसार भी नहीं कर पाते। खराब गुणवत्ता, अधिक कीमत और प्रचार-प्रसार के अभाव के कारण सूक्ष्म उद्यमों के उत्पाद बाजार में टिक नहीं पाते।

इनके लिए अपनी लागत निकाल पाना कठिन हो जाता है। स्वयं को जिंदा रखने की जटिलता के बीच नोटबंदी, जीएसटी और कोरोना महामारी जैसे इंटके इन्हें तोड़ कर रख देते हैं। यहां गौर करने वाली बात यह है कि देश के एमएसएमई क्षेत्र में 99.4 फीसद (छह करोड़ तीस लाख) हिस्सा सूक्ष्म उद्यमों का है। लघु उद्यम 0.52 फीसद यानी तीन लाख इकतीस हजार और मध्यम उद्यमों की हिस्सेदारी मात्र 0.007 फीसद यानी पांच हजार ही है।

ऑल इंडिया मैनुफैक्चरर्स ऑर्गनाइजेशन (एआइएमओ) के एक सर्वे के अनुसार पिछले सवा साल के कोरोना काल के दौरान पैतीस फीसद एमएसएमई को अपने कारोबार बंद करने को मजबूर होना पड़ा। कारोबार बंद होने से बेरोजगारी बढ़ती है। बेरोजगारी बढ़ने से मांग

घटती है और मांग घटने से अर्थव्यवस्था टूटती है। सेंटर फॉर मॉनिटरिंग इंडियन इकोनॉमी (सीएमआई) के आंकड़े बताते हैं कि ग्यारह जून को बेरोजगारी दर 12.35 फीसद पर थी। मई महीने में यह 11.90 फीसद थी। लेकिन हैरत की बात तो यह कि सरकार एमएसएमई के बंद होने की बात से ही इनकार कर रही है। सरकार लगातार कह रही है कि एमएसएमई के बंद होने से संबंधित कोई आंकड़ा उपलब्ध नहीं है। फिर यह सवाल वाजिब हो जाता है कि क्या सरकार ने आंकड़े जुटाने की कोई कोशिश भी की?

ऐसा भी नहीं है कि सरकार एमएसएमई क्षेत्र के लिए कुछ नहीं कर रही। एमएसएमई को आसान कर्ज उपलब्ध कराने से लेकर उत्पादों के विपणन, प्रौद्योगिकी संवर्धन और कौशल विकास में सरकार विभिन्न योजनाओं के तहत मदद करती है। लेकिन ये मदद अपर्याप्त ही कही जाएगी। वित्त वर्ष 2021-22 के बजट

कार्यक्रम (पीएमईजीपी) के आवंटन में भारी वृद्धि की गई और इसे दो हजार आठ सौ करोड़ रुपए से बढ़ा कर साढ़े बारह हजार करोड़ रुपए कर दिया गया है। इसी एक योजना के आवंटन के कारण 2021-22 के बजट में एमएसएमई का आवंटन 15,700 करोड़ रुपए हो गया, जो 2020-21 में 7,572 करोड़ रुपए था। लेकिन जीडीपी में एक-तिहाई का योगदान देने वाले, कृषि क्षेत्र के बाद सबसे अधिक रोजगार (लगभग बारह करोड़) पैदा करने वाले, विनिर्माण क्षेत्र में 33.4 फीसद का योगदान करने वाले और देश के निर्यात में पैतालीस फीसद की हिस्सेदारी निभाने वाले क्षेत्र के लिए 15,700 करोड़ रुपए का बजट आवंटन उंट के मुंह में जीरे से ज्यादा कुछ नहीं है।

वित्तीय तंगी इस क्षेत्र की सबसे बड़ी समस्या है। सरकार ने एमएसएमई को वित्तीय मदद के लिए पिछले साल तीन लाख करोड़ रुपए की एक आपात कर्ज गांठी योजना (ईसीएलजीएस) शुरू की थी। योजना की अवधि मार्च 2021 तक थी। इसके तहत बगैर किसी जमानत के कर्ज लेने की सुविधा थी। सरकार की इस योजना से देश के कुल एमएसएमई में से मात्र लगभग चौदह फीसद को ही लाभ मिल पाया। इस कर्ज राशि का भी ज्यादातर इस्तेमाल एमएसएमई इकाइयों ने कर्ज के पुनर्भुगतान में ही किया। सरकार चाहती थी कि एमएसएमई क्षेत्र के उद्यम कर्ज लेकर अपने कारोबार को मजबूत करें, ताकि रोजगार पैदा हो और अर्थव्यवस्था का चक्का रफ्तार पकड़े। लेकिन भूखे-प्यासे इतने बड़े क्षेत्र के लिए यह राशि ओस की बूंद से अधिक नहीं थी। वैसे भी बाजार में मांग नहीं है, तो उद्यमी कर्ज लेकर क्या करेंगे? अंतरराष्ट्रीय वित्त निगम (आइएफसी) और इंटेलिकैप की 2019 की एक रपट के अनुसार भारत में एमएसएमई क्षेत्र के लिए ऋण की मांग और आपूर्ति के बीच 17.4 लाख करोड़ रुपए की कमी है।

को ही देखें। खादी, ग्रामोद्योग और काँच उद्योग के लिए कुल आवंटन पिछले साल के 1525.94 करोड़ रुपए से घटा कर इस साल 905.04 करोड़ रुपए कर दिया गया। प्रौद्योगिकी से संबंधित योजनाओं के लिए आवंटन 683.91 करोड़ रुपए से घटा कर 330.31 करोड़ रुपए कर दिया गया। इसी तरह विपणन समर्थन योजना का आवंटन पिछले साल के 74.63 करोड़ रुपए से घटा कर इस साल 39.96 करोड़ रुपए कर दिया गया। एमएसएमई क्षेत्र में कुशल श्रमिकों का अभाव हमेशा एक बड़ी समस्या है। लेकिन उद्यमिता और कौशल विकास के लिए आवंटन में मामूली वृद्धि की गई और इसे 556.47 करोड़ रुपए से बढ़ा कर 570.93 करोड़ रुपए किया गया है। हां, सिर्फ प्रधानमंत्री रोजगार सृजन

कार्यक्रम के मौजूदा हालात में एमएसएमई पर बकाया कर्ज के एनपीए होने का भी खतरा बना हुआ है। इस साल मार्च में फिक्की और इंडियन बैंक एसोसिएशन की तरफ से बैंकों के बीच किए गए एक सर्वे में चौरासी फीसद प्रतिभागियों ने एमएसएमई क्षेत्र से एनपीए में वृद्धि होने की आशंका जताई है। वह भी तब जब सरकार एमएसएमई क्षेत्र का जीडीपी में योगदान बढ़ा कर पचास फीसद करना चाहती है। इस क्षेत्र में पांच करोड़ नई नौकरियां पैदा करना चाहती है। लेकिन इतनी सारी समस्याओं वाले एमएसएमई क्षेत्र में क्या यह लक्ष्य हासिल कर पाना संभव है? उम्मीद है 27 जून को जब एक बार फिर अंतरराष्ट्रीय एमएसएमई दिवस मनाया जाएगा तो इस सवाल का जवाब भी तलाशा जाएगा।

[Umbrella of 170 associations AICA to address issues of MSME sector](#)

As many as 170 industry associations have joined hands to form All India Council of Association of MSMEs (AICA) in order to deal with issues of the sector hit hard by the pandemic.

The pandemic has affected every industry in the country and MSMEs are hit the most due to frequent lockdowns, AICA said in a statement. From manpower to raw material prices, all have been posing challenges to the existence of micro, small and medium enterprises, it added. "AICA today announced that 170 industry associations have joined together to address post COVID issues faced by two lakh MSMEs across India," it said. MSMEs in India add to about 30 per cent of the overall employment generated in India and contribute about the same to the overall GDP of the country.

Advertisement

"We have been working on combining these associations under one umbrella since the first lockdown was imposed by the Government of India. We will be sharing the draft recommendations with the concerned ministries to look into the points and address the issues," it added.

The core team members include M V Ramesh Babu, President, CODISSIA (Coimbatore District Small Industries Association), Yogesh Pawar, Chairman, Arise and KV Karthik, President, SIEMA (Southern India Engineering Manufacturers' Association).

New Delhi, Jun 21 (PTI) As many as 170 industry associations have joined hands to form All India Council of Association of MSMEs (AICA) in order to deal with issues of the sector hit hard by the pandemic.

The pandemic has affected every industry in the country and MSMEs are hit the most due to frequent lockdowns, AICA said in a statement.

From manpower to raw material prices, all have been posing challenges to the existence of micro, small and medium enterprises, it added.

"AICA today announced that 170 industry associations have joined together to address post COVID issues faced by two lakh MSMEs across India," it said.

MSMEs in India add to about 30 per cent of the overall employment generated in India and contribute about the same to the overall GDP of the country.

"We have been working on combining these associations under one umbrella since the first lockdown was imposed by the Government of India. We will be sharing the draft recommendations with the concerned ministries to look into the points and address the issues," it added.

The core team members include M V Ramesh Babu, President, CODISSIA (Coimbatore District Small Industries Association), Yogesh Pawar, Chairman, Arise and KV Karthik, President, SIEMA (Southern India Engineering Manufacturers' Association).

No less than 170 industry associations have joined together to form the All India Council of Association of MPMEs (AICA) to address issues in the sector hit hard by the pandemic.

The pandemic has affected all industries in the country and MSMEs are the most affected due to frequent lockdowns, the IAIS said in a statement. From labor to commodity prices, all have posed challenges to the existence of micro, small and medium enterprises, he added. “The IAIS today announced that 170 industry associations have come together to address the post-COVID issues facing two lakh MSMEs across India,” he said. MSMEs in India account for around 30 percent of the overall employment generated in India and contribute about as much to the country’s overall GDP.

“We have been working to bring these associations together under one roof since the first lockdown was imposed by the Indian government. We will share the draft recommendations with the relevant ministries to review the points and resolve the issues, ” he added.

The main team members are MV Ramesh Babu, President, CODISSIA (Coimbatore District Small Industries Association), Yogesh Pawar, President, Arise and KV Karthik, President, SIEMA (Association of Engineering Manufacturers of India from South).

[170 Industry associations join hands to accelerate recovery of MSMEs](#)

As many as 170 industry associations have joined hands to form the All India Council of Association of MSMEs (AICA) in order to deal with issues of the sector hit hard by the COVID-19 pandemic.

The pandemic has affected every industry in the country and MSMEs are hit the most due to frequent lockdowns, AICA said in a statement released by the company.

"From manpower to raw material prices, all have been posing challenges to the existence of micro, small and medium enterprises," it added.

"AICA today announced that 170 industry associations have joined together to address post COVID-19 issues faced by two lakh MSMEs across India," it said.

According to a report by IBEF, India has approximately 6.3 crore MSMEs. The sector contributes about 30 percent to the country's GDP and about 45 percent to the exports.

"We have been working on combining these associations under one umbrella since the first lockdown was imposed by the Government of India. We will be sharing the draft recommendations with the concerned ministries to look into the points and address the issues," it added.

The core team members include MV Ramesh Babu, President, CODISSIA (Coimbatore District Small Industries Association), Yogesh Pawar, Chairman, Arise and KV Karthik, President, SIEMA (Southern India Engineering Manufacturers' Association).

The coronavirus pandemic, especially, the lockdown has deeply impacted small and medium businesses. Moreover, just when the sector was recovering from the consequences of the first wave, the second wave struck and brought the sector to a standstill yet again.

According to a survey by Care Ratings — which was conducted between April 27 and May 11 with a set of 305 respondents, including small and medium businesses — as many as 84 percent of respondents said the deadly second COVID-19 wave escalated business uncertainty.

The survey also revealed that over 40 percent of the MSMEs were likely to borrow in the coming six months, whereas 41 percent said they didn't want to resort to lending.

[MSME body seeks intervention of PM on rising raw material prices](#)

An umbrella body for micro, small and medium enterprises AICA on Wednesday sought immediate intervention of Prime Minister Narendra Modi on rising prices of raw materials such as steel, iron ore, aluminum, copper, plastics and paper.

As many as 170 industry associations have joined hands to form the All India Council of Association of (AICA) in order to deal with issues of the sector hit hard by the pandemic.

In a representation to the prime minister, AICA said that the sector is facing huge challenges due to erosion of working capital on account of huge rise in prices of raw materials like steel, iron ore, aluminum, copper, plastics, PVC, paper, and chemicals.

"We understand this volatile situation is temporary in nature. However, it can cause permanent damage to the MSME sector. In spite of a drop in demand due to lockdown, prices are on the upswing, particularly steel, pig iron and other raw materials, too," it said.

It claimed that steel and other base material manufacturers are declaring 10-20 times higher profit whereas all the are on the verge of extinction.

The association has suggested eight points to overcome the crisis and it includes protection against escalation in prices for some period; public sector enterprises must be instructed to accept cancellation of orders from with no penalty/ black listing; a formula should be derived for price escalation; and quota for MSMEs at concessional price.

It said that the government should allow import of all steel materials based on cost and quality requirements at zero import duty and no anti-dumping; and banning the export of iron ore and steel products.

It also recommended that MSMEs, under government contract and suppliers to PSU, should be allowed to revise their price with fresh quote and for all finalised government and PSU supplies, they should be permitted to invoke escalation clause and requote.

"If the MSMEs get crippled and choked this way, due to spiraling price rise of raw materials, it will only discourage entrepreneurship, ultimately leading to failure of the government's objective of Atma Nirbhar Bharath.

"We, therefore, urge the government to take concrete steps to reign in raw material prices," it said.

The core team members include Coimbatore District Small Industries Association President M V Ramesh Babu, Arise Chairman Yogesh Pawar, Southern India Engineering Manufacturers' Association President K V Karthik, and Ludhiana Hand Tools Association President S C Ralhan.

MSMEs account for 30 per cent of India's GDP, 45 per cent of manufacturing output, 48 per cent of total exports, and employ over 11 crore people. There are about 63.5 million MSMEs in the country.

[MSME body AICA writes to PM, seeks intervention as price of raw material rises](#)

All India Council of Association of MSMEs (AICA), representing around 170 MSME associations, has written to the prime minister urging the government to intervene after a massive spike in key raw material prices hurt MSMEs.

In its letter, AICA has said that there is an erosion in the working capital of MSMEs due to a huge rise in prices of raw materials like steel, iron ore, aluminum, copper, plastics, PVC, paper and chemicals.

It further said that the open market is not accepting the resultant effect of the increase in the price of raw materials. AICA further said that the raw materials are being blocked and stocked in the supply chains.

"We understand this volatile situation is temporary in nature, however can cause permanent damage to the MSME sector. In spite of drop in demand due to lockdown, prices are in upswing, particularly steel, pig iron and other raw materials too," AICA said in a statement.

Between April 2020 and June 2021, the price of copper has surged 109 percent from Rs. 345 to Rs 745 while the price of steel plates have jumped 82 percent from Rs 45 to Rs 82 during the same period.

The industry body has suggested hedging of steel for the MSMEs in order to provide protection against escalation for some period.

"Easy mechanism to hedge steel for all MSMEs, National Small Industries Corporation (NSIC) should act as a consolidation agency. They should be in a position to consolidate and hedge overall steel quantity in the market place. This kind of hedging should be possible for a period of one year," it said.

AICA further suggested that the public sector enterprises must be instructed to accept cancellation of orders from MSMEs without putting a penalty or blacklisting them as an event of increase in the prices of steel is not within the control of the MSMEs.

The industry body also called out for the PSUs to publish steel prices on a quarterly basis and urged that the price should be maintained for a minimum of 3 months at a stretch.

"PSUs like SAIL and Vizag steel should focus on MSMEs for supply of materials on priority basis and all steel industries should allocate at least 40 percent of their production for Indian MSMEs," AICA said in its suggestions.

As a result of the consecutive lockdowns in 2020 and 2021, the MSME sector has been facing a massive liquidity and supply crunch, shortage of labour and non-payment of dues.

The MSME sector in India is said to be the second-largest employment creator after agriculture, providing employment to an estimated 11 crore people. It contributes to 30 percent of the GDP and accounts for 48 percent of the exports.

On Wednesday, a subsidiary of SME AICA called for immediate intervention by Prime Minister Narendra Modi on rising prices for raw materials such as steel, iron ore, aluminum, copper, plastic and paper.

170 industry groups have collaborated to form the MSME Council of Micro, Small and Medium (AICA) to address issues in the sector that have been hit hard by the pandemic.

See ZeeBusiness Live TV Streaming below.

On behalf of the Prime Minister, AICA is steel, iron ore, aluminum, copper, plastic, PVC, paper and chemicals.

“We understand that this volatile situation is temporary, but it can cause permanent damage to the MSME sector. Despite the decline in demand due to the blockade, especially steel, pig iron, Prices for other raw materials are on the rise, too. “

Steel and other base material makers have declared 10 to 20 times more profit, but all MSMEs have claimed to be endangered.

The association has proposed eight points to overcome the crisis, which includes protection against price increases over a period of time. Public sector companies must be instructed to accept cancellation of orders from MSME without penalty / blacklist. We need to come up with a formula for price increases. Allocation of MSMEs at concessional prices.

The government said it should allow the import of all steel materials based on cost and quality requirements, without zero import tariffs and anti-dumping. Exports of iron ore and steel products are banned.

MSME should also be allowed to modify prices with new quotes under contracts with governments and suppliers to PSUs, calling escalation clauses for all final government and PSU supplies. Should be allowed to re-estimate.

“If MSMEs become so dysfunctional and choked due to the sharp rise in raw material prices, they will only hinder entrepreneurship and ultimately lead to the failure of the government’s goal of Atma Nirbhar Bharath.

“Therefore, we urge the government to take concrete steps to control raw material prices,” he said.

Core team members include MV Ramesh Babu, Chairman of the Coimbatore SME Association, Yogesh Pawar, Chairman of Arise, KV Karthik, Chairman of the South Indian Engineering Manufacturers Association, and SC Ralhan, Chairman of the Ludhiana Hand Tools Association.

MSME accounts for 30% of India’s GDP, 45% of manufacturing output and 48% of total exports, and employs more than 1.1 billion people. There are about 63.5 million MSMEs in the country.

[MSMEs' body seeks immediate intervention of PM Modi on rising raw material prices](#)

An umbrella body for micro, small and medium enterprises AICA on Wednesday sought immediate intervention of Prime Minister Narendra Modi on rising prices of raw materials such as steel, iron ore, aluminum, copper, plastics and paper.

As many as 170 industry associations have joined hands to form the All India Council of Association of MSMEs (AICA) in order to deal with issues of the sector hit hard by the pandemic.

In a representation to the prime minister, AICA said that the sector is facing huge challenges due to erosion of working capital on account of huge rise in prices of raw materials like steel, iron ore, aluminum, copper, plastics, PVC, paper, and chemicals.

"We understand this volatile situation is temporary in nature. However, it can cause permanent damage to the MSME sector. In spite of a drop in demand due to lockdown, prices are on the upswing, particularly steel, pig iron and other raw materials, too," it said.

Also read — MSMEs seek relief package from both central and state governments

It claimed that steel and other base material manufacturers are declaring 10-20 times higher profit whereas all the MSMEs are on the verge of extinction.

The association has suggested eight points to overcome the crisis and it includes protection against escalation in prices for some period; public sector enterprises must be instructed to accept cancellation of orders from MSMEs with no penalty/ black listing; a formula should be derived for price escalation; and quota for MSMEs at concessional price.

It said that the government should allow import of all steel materials based on cost and quality requirements at zero import duty and no anti-dumping; and banning the export of iron ore and steel products.

It also recommended that MSMEs, under government contract and suppliers to PSU, should be allowed to revise their price with fresh quote and for all finalised government and PSU supplies, they should be permitted to invoke escalation clause and requote.

"If the MSMEs get crippled and choked this way, due to spiraling price rise of raw materials, it will only discourage entrepreneurship, ultimately leading to failure of the government's objective of Atmanirbhar Bharat.

"We, therefore, urge the government to take concrete steps to reign in raw material prices," it said.

The core team members include Coimbatore District Small Industries Association President M V Ramesh Babu, Arise Chairman Yogesh Pawar, Southern India Engineering Manufacturers' Association President K V Karthik, and Ludhiana Hand Tools Association President S C Ralhan.

MSMEs account for 30 per cent of India's GDP, 45 per cent of manufacturing output, 48 per cent of total exports, and employ over 11 crore people. There are about 63.5 million MSMEs in the country.

Spiralling rise in prices of raw materials will only discourage entrepreneurship, says association

Industry associations representing MSME sector in the region look for a positive response from the Central government following deliberations conducted by All India Council of Association of MSMEs on Wednesday on problems faced by industries, with particular reference to rapid escalation in the cost of steel and other construction inputs.

The AICA, representing around 170 MSME associations covering approximately more than two lakh industrial units across the country, made a representation to the Central government seeking immediate intervention for sustenance of the sector, and has forwarded copies of the same to Union Ministers of Finance and Corporate Affairs, MSME, Steel, Commerce and Industry, and Coal and Mines.

Representatives of Tiruchi District Tiny and Small Scale Industries' Association, Nagapattinam District Small and Tiny Industries' Association, Tiruvarur District Small and Tiny Industries' Association, BHEL Small Industries' Association, and Valavandankottai Industrial Manufacturers' Association took part in the discussion and sought speedy solutions for survival of the MSME sector, in the backdrop of many industries turning sick.

The escalation in the cost of steel during the lockdown period to the extent of 60% to 70% was unprecedented, threatening the very sustainability of manufacturing units, R. Ilango, president of Tiruchi District Tiny and Small Scale Industries' Association, said.

BHELSIA has, through a forum for raw materials, conveyed the difficulties being faced by the fabrication sector, BHELSIA president Rajappa Rajkumar said.

According to V. Ramachandiran, president of Nagapattinam District, Small and Tiny Industries' Association, the reluctance of banks to implement interest subvention scheme of Reserve Bank of India was deplorable.

In its representation to the Prime Minister, AICA has pointed out that the steep hike in the price of raw materials across all sectors, despite low consumption and subsequent drop in production by MSMEs has led to loss of employment and depreciation in the value of rupee.

It has questioned the fixation of benchmark for steel industry pricing based on international market prices rather than the demand and supply situation in the country.

Seeking an appointment with Prime Minister Narendra Modi to highlight the precarious situation of MSMEs, AICA cautioned that the spiralling rise in prices of raw materials will only discourage entrepreneurship and failure of the government's objective of Atmanirbhar Bharat.

[एमएसएमई संगठन की कच्चे माल के बढ़ते दाम को लेकर प्रधानमंत्री से हस्तक्षेप की मांग](#)

नयी दिल्ली, 23 जून सूक्ष्म, लघु एवं मध्यम उद्यमों के संघों की प्रमुख संस्था एआईसीएने बुधवार को इस्पात, लौह अयस्क, एल्यूमीनियम, तांबा, प्लास्टिक और कागज जैसे कच्चे माल की बढ़ती कीमतों के मामले में प्रधानमंत्री नरेन्द्र मोदी से हस्तक्षेप की मांग की है।

कोरोना वायरस महामारी से सबसे ज्यादा प्रभावित एमएसएमई उद्योग ने हाल ही में आल इंडिया काउंसिल ऑफ एसोसियेशन ऑफ एमएसएमई (एआईसीए) कागठन किया है। इस परिषद में 170 के करीब उद्योग संघों ने हाथ मिलाया है।

प्रधानमंत्री को भेजे गए ज्ञापन में एआईसीएने इस्पात, लौह अयस्क, एल्यूमीनियम, तांबा, प्लास्टिक्स, पीवीसी, कागज और रसायन जैसे कच्चे माल के दाम में भारी वृद्धि के चलते कार्यशील पूंजी में कमी और औद्योगिक इकाइयों के समक्ष खड़ी चुनौती का जिक्र किया है।

एआईसीएने कहा है,

“हमारा मानना है कि मौजूदा उतार चढ़ाव स्थितिका स्वरूप अस्थिर है। लेकिन यह एमएसएमई क्षेत्र के लिये स्थायी नुकसान का कारण बन सकती है। लॉकडाउन के दौरान मांग में कमी के बावजूद दाम बढ़ रहे हैं। खासतौर से इस्पात, लौह पिंड उद्योग 10 से 20 गुणा अधिक मुनाफा घोषित कर रहे हैं जबकि एमएसएमई उद्योग बंदी की कगार पर है। संगठन ने मौजूद संकट की स्थिति से निकलने के लिये आठ बिंदुओं का सुझाव दिया है। इसमें कुछ अवधिके लिये दाम बढ़ने से बचाव के उपाय, सार्वजनिक क्षेत्र के उपक्रमों को जुमाने अथवा काली सूची में डालने की कार्रवाई के बिना एमएसएमई से आर्डर निरस्त होने को स्वीकार करने और एमएसएमई के लिये रियायती दाम पर कोट तय किये जाने जैसे उपाय शामिल हैं।

इसके साथ ही संगठन ने लागत और गुणवत्ता आवश्यकताओं के अनुरूप सभी इस्पात सामग्री के शून्य शुल्क पर आयात की अनुमति दिये जाने साथ ही डंपिंग रोधी शुल्क नहीं लगाने का भी सुझाव दिया है। इसके साथ ही लौह अयस्क और इस्पात उत्पादों के निर्यात पर रोक लगाने को कहा गया है।

संगठन ने कहा है कि सरकारी अनुबंध के तहत सार्वजनिक उपक्रमों को आपूर्ति करने वाले एमएसएमई को नई बोली के साथ मूल्य संशोधित करने की अनुमति दी जानी चाहिये। वहीं अंतिम रूप से स्वीकार हो चुकी सरकारी और सार्वजनिक उपक्रमों की आपूर्तिके मामले में उन्हें वृद्धि अनुबंध का इस्तेमाल करने और फिर से दाम बताने की अनुमति दी जानी चाहिये।

संगठन ने भेजे गये ज्ञापन में कहा है कि यदि एमएसएमई इसी तरह से कच्चे माल का दाम बढ़ने के कारण संकट में पड़ते चले गये तो उद्यमशीलता हतोत्साहित होगी और अंततः इससे आत्मनिर्भर भारत के सरकार कालक्षय असफल साबित होगा।

संगठन की मुख्य टीम में कोयम्बटूर डिस्ट्रिक्ट स्माल इंडस्ट्रीज एसोसियेशन, सदर इंडिया इंजीनियरिंग मैनुफैक्चरर्स एसोसियेशन और लुधियाणा हैंड टूल्स एसोसियेशन के अध्यक्ष शामिल हैं।

[MSME Body AICA Calls for Immediate Intervention of Prime Minister Narendra Modi-This Is Why](#)

On Wednesday, a subsidiary of SME AICA called for immediate intervention by Prime Minister Narendra Modi on rising prices for raw materials such as steel, iron ore, aluminum, copper, plastic and paper.

170 industry groups have collaborated to form the MSME Council of Micro, Small and Medium (AICA) to address issues in the sector that have been hit hard by the pandemic.

See ZeeBusiness Live TV Streaming below.

On behalf of the Prime Minister, AICA is steel, iron ore, aluminum, copper, plastic, PVC, paper and chemicals.

“We understand that this volatile situation is temporary, but it can cause permanent damage to the MSME sector. Despite the decline in demand due to the blockade, especially steel, pig iron, Prices for other raw materials are on the rise, too. “

Steel and other base material makers have declared 10 to 20 times more profit, but all MSMEs have claimed to be endangered.

The association has proposed eight points to overcome the crisis, which includes protection against price increases over a period of time. Public sector companies must be instructed to accept cancellation of orders from MSME without penalty / blacklist. We need to come up with a formula for price increases. Allocation of MSMEs at concessional prices.

The government said it should allow the import of all steel materials based on cost and quality requirements, without zero import tariffs and anti-dumping. Exports of iron ore and steel products are banned.

MSME should also be allowed to modify prices with new quotes under contracts with governments and suppliers to PSUs, calling escalation clauses for all final government and PSU supplies. Should be allowed to re-estimate.

“If MSMEs become so dysfunctional and choked due to the sharp rise in raw material prices, they will only hinder entrepreneurship and ultimately lead to the failure of the government’s goal of Atma Nirbhar Bharath.

“Therefore, we urge the government to take concrete steps to control raw material prices,” he said.

Core team members include MV Ramesh Babu, Chairman of the Coimbatore SME Association, Yogesh Pawar, Chairman of Arise, KV Karthik, Chairman of the South Indian Engineering Manufacturers Association, and SC Ralhan, Chairman of the Ludhiana Hand Tools Association.

MSME accounts for 30% of India’s GDP, 45% of manufacturing output and 48% of total exports, and employs more than 1.1 billion people. There are about 63.5 million MSMEs in the country.

[Steep hike in prices of raw materials are adding to MSME woes: AICA](#)

According to the All India Council of Association of MSMEs (AICA), steep hike in prices of raw materials such as steel, pig iron, copper, aluminium alloy, etc, are adding to the woes of the sector.

In a statement released today, the association said the rise in the price of raw materials has resulted in several challenges such as erosion of working capital, non-availability of basic raw materials, blocking and stocking of raw materials in the entire supply chain and much more.

AICA consists of about 170 MSME Associations covering approximately more than 2,00,000 MSME industries across Pan India. The association has submitted a request to Prime Minister Narendra Modi for an appointment to discuss these issues.

According to AICA, the situation is alarming as MSMEs could be confronted with grave possibilities such as getting black-listed by PSUs and large corporates incase they fail to honour their commitments. The export market which will help in the recovery of the sector and the economy at-large might take a hit in view of the price hike.

ALSO READ [170 Industry associations join hands to accelerate recovery of MSMEs](#)

Furthermore, the association shared data that indicates how much the prices have skyrocketed in the last one year.

The price of copper reached Rs 745 in June 2021 from Rs 355 in April 2020 (a 109.86 percent hike). Other important raw materials like aluminium alloy, mild steel plate, and CRCA sheet reported 94.34, 82.22 and 95.96 percent increase respectively.

AICA, in its appeal, also rolled out a slew of measures that could help the sector stay afloat amid the crisis. Action points such as PSUs accepting cancellation of orders, quota for MSMEs at concessional prices, GST-based funding, allowing import based on cost and quality, and more can help in controlling the damage within this sector, the statement read.

The Indian MSME sector contributes about 30 percent to the country's GDP and 48 percent to exports. According to a survey by Care Ratings — which was conducted between April 27 and May 11 with a set of 305 respondents, including small and medium businesses — as many as 84 percent of respondents said the deadly second COVID-19 wave escalated business uncertainty.

Headline :	'Public Sector Enterprises must accept cancellation of orders from MSME with no penalty'	Word Count :	311
Reporter	Bureau	Display:	1/1

['Public Sector Enterprises must accept cancellation of orders from MSME with no penalty'](#)

The All India Council of Association of MSMEs on Wednesday said that Public Sector Enterprises must be urged to accept cancellation of orders from MSMEs with no penalty/black listing as steel price increase is a Force Majeure event outside the control of the MSMEs.

It further added that the Goods and Services Tax (GST)-based funding is needed for all MSMEs at very marginal rates which will encourage MSMEs to purchase raw materials.

Also read: RBI doubles exposure threshold to ₹50 crore

"MSMEs are the backbone of this economy, contributing to 30 per cent of GDP, 48 per cent of exports and creating job opportunities for 12 crore people, which translates to about 40 crore people of India (one-third of our population approximately) who are dependent on these MSMEs," said the statement.

It must be noted that the steep hike in price of raw materials across all sectors, despite low consumption, and subsequent drop in the production by MSMEs is directly leading to loss of employment, it added.

Reining-in prices

"Government should allow import of all steel materials based on cost and quality requirements at a nil import duty (no anti-dumping) and also ban export of iron ore and steel products. It may be noted that better GDP growth can be realised if value-added products are exported rather than raw materials. This will generate employment too," added the statement.

It further said that the government has always advocated strongly for development of entrepreneurship. However, if MSMEs get crippled and choked due to spiraling price rise of raw materials, it will only discourage entrepreneurship, ultimately leading to failure of the government's objective of Atmanirbhar Bharat.

"Representations made by all associations on this steep hike has yielded no response from the concerned ministries till date. We therefore urge the Government to take concrete steps to rein-in raw material prices at once and save the MSMEs before they get extinct," said the statement.

[170 MSME bodies join hands at AICA](#)

Kolkata: All India Council of Association (AICA) of MSMEs (micro, small & medium enterprises) has announced that 170 industry associations have joined together to address post-Covid issues faced by two lakhs MSMEs across India. MSMEs in India add to approximately 30% of the overall employment generated in India. These MSMEs add approximately 30% of the overall GDP of the country. Vijay Beriwal, executive member, AICA, pointed out that the pandemic has affected every industry in the country and MSMEs are hit the most due to frequent lockdowns. From manpower to raw material prices have been posing challenges to their existence. Speaking on the joint effort of All India Council of Associations of MSMEs, he said, "We have been working on combining these associations under one umbrella since the first lockdown was imposed by the Government of India. We have been able to bring in 170 industry associations under one roof across the country. We have started the consultations with every association and we are soon planning to highlight the challenges faced by different sectoral MSMEs. We will be sharing the draft recommendations with the ministries concerned to look into the low points and address the issues." Elaborating the problems, Beriwal pointed out that the Centre had auctioned iron ore mines 110 million tonne annual production last year out of which 50% (with JSW, Arcelor who have their captive consumption) are only operational and rest are shut. He feels that the Centre should immediately take necessary steps to start the production in those mine. He also suggested that iron ore fines below 55% and pallets are exempted from export duty whereas pallets made from 55% > wherein process of making pallets does not involve any value addition. "This is exported thus creating shortage as well as loss to the government exchequer. Hence pallets should have 30% export duty," he added.

[170 MSME associations join forces to fight price hike](#)

Coimbatore: At least 170 associations of micro, small and medium enterprises (MSMEs) in the country have come together to seek the Union government's immediate intervention in controlling the price hike of raw materials. They petitioned the Centre on Wednesday.

In a press note, the All India Council of Association of MSMEs (AICA) said there was a steep rise in the price of raw materials, especially that of steel and pig iron, despite their low consumption and significant drop in the production during the lockdown.

According to AICA, the price of mild steel plate has gone up by 82.22%, aluminium alloy by 94.34%, copper by 109.86%, pig iron by 50%, MS scrap by 48.15% and PVC pipe by 47.44%, since April 2020. AICA has more than two lakh MSMEs as members.

The association said the manufacturers of steel and other base materials were logging 10 to 20 times higher profit, while the MSMEs were on the verge of extinction. It said the steel manufacturers were not fixing the price based on the demand and supply situation in the country, but based on the international market prices.

Because of the price rise, AICA said, the MSMEs could not execute orders at a lower price and they were facing uncertainty of getting blacklisted by the public sector undertakings (PSUs) and large corporate companies, if they could not supply the products as per the agreement.

The association members also demanded the Union government to take necessary steps to bring an easy mechanism to hedge steels for the MSMEs and provide the National Small Industries Corporation (NSIC) powers to consolidate and hedge overall steel quantity in the market.

"The Steel Authority of India Limited (SAIL) and steel makers should publicise prices of long and flat steel products, and HRC coils on a quarterly basis and the price should be maintained for a period of three months at least. PSUs like SAIL and Vizag steel should supply materials to the MSMEs on a priority basis and the steel manufacturers should allocate at least 40% of their production to the local MSMEs," the association said in the press note.

The association also demanded that the MSMEs under the government contract and the suppliers to PSUs should be allowed to revise their price, the government should take steps to provide GST-based funding with minimal marginal rate to them and allow them to import steel materials with nil import duty.

[Uttar Pradesh govt dispenses Rs 2,505 crore loans to over 31,542 MSMEs](#)

The Uttar Pradesh government on Wednesday dispensed a total loan of Rs 2,505.58 crore to over 31,542 micro, small and medium industries for supporting their expansion plans. Along with this, for the production as well as distribution of products under the 'One District-One Product' (ODOP) scheme, the government launched a special portal and laid the foundation stone of a common facility centre in nine districts of the state.

On this occasion of Online Swarozgar Sangam, Chief Minister Yogi Adityanath said similar loan fairs should be organised in all 75 districts of the state in the next one month. He also said, "Today, the youth in the state is focusing on creating job opportunities rather than running after jobs. Schemes like the Prime Minister's Employment Generation Programme, Mukhyamantri Yuva Swarozgar Yojana, and ODOP have provided support to the youth."

MSME body AICA writes to PM, seeks intervention as price of raw material rises

The chief minister added that the women have shown great enthusiasm in self-employment programmes in the state. "Women are actively involved in traditional crafts like Chikankari of Lucknow." He added that during the first wave of COVID-19, the state government had a challenge to save the lives and livelihood of 40 lakh migrant workers.

"MSME units did a commendable job in this direction. Last year, a financial assistance was given to about 34,000 MSME units during the COVID-19 period," Adityanath. He added that as the second wave of COVID-19 is under control, a provision is being made to provide loans to these industries once again.

The UP CM said mapping of the products should be done as there is no dearth of talent in the state and they need a platform to showcase the talent. "Uttar Pradesh will play a significant role in fulfilling the dream of a Aatmanirbhar Bharat." Adityanath also gifted tool-kits to the owner of various businesses like carpentry, goldsmith and barber, the UP government said in a statement.

[MSME body seeks intervention of PM on rising raw material prices](#)

An umbrella body for micro, small and medium enterprises AICA on Wednesday sought immediate intervention of Prime Minister Narendra Modi on rising prices of raw materials such as steel, iron ore, aluminum, copper, plastics and paper.

As many as 170 industry associations have joined hands to form the All India Council of Association of MSMEs (AICA) in order to deal with issues of the sector hit hard by the pandemic.

In a representation to the prime minister, AICA said that the sector is facing huge challenges due to erosion of working capital on account of huge rise in prices of raw materials like steel, iron ore, aluminum, copper, plastics, PVC, paper, and chemicals.

"We understand this volatile situation is temporary in nature. However, it can cause permanent damage to the MSME sector. In spite of a drop in demand due to lockdown, prices are on the upswing, particularly steel, pig iron and other raw materials, too," it said.

It claimed that steel and other base material manufacturers are declaring 10-20 times higher profit whereas all the MSMEs are on the verge of extinction.

The association has suggested eight points to overcome the crisis and it includes protection against escalation in prices for some period; public sector enterprises must be instructed to accept cancellation of orders from MSMEs with no penalty/ black listing; a formula should be derived for price escalation; and quota for MSMEs at concessional price.

It said that the government should allow import of all steel materials based on cost and quality requirements at zero import duty and no anti-dumping; and banning the export of iron ore and steel products.

It also recommended that MSMEs, under government contract and suppliers to PSU, should be allowed to revise their price with fresh quote and for all finalised government and PSU supplies, they should be permitted to invoke escalation clause and requote.

"If the MSMEs get crippled and choked this way, due to spiraling price rise of raw materials, it will only discourage entrepreneurship, ultimately leading to failure of the government's objective of Atma Nirbhar Bharath.

"We, therefore, urge the government to take concrete steps to reign in raw material prices," it said.

The core team members include Coimbatore District Small Industries Association President M V Ramesh Babu, Arise Chairman Yogesh Pawar, Southern India Engineering Manufacturers' Association President K V Karthik, and Ludhiana Hand Tools Association President S C Ralhan.

MSMEs account for 30 per cent of India's GDP, 45 per cent of manufacturing output, 48 per cent of total exports, and employ over 11 crore people. There are about 63.5 million MSMEs in the country.

NEW DELHI: An umbrella body for micro, small and medium enterprises AICA on Wednesday sought immediate intervention of Prime Minister Narendra Modi on rising prices of raw supplies resembling steel , iron ore, aluminum, copper, plastics and paper.

As many as 170 trade associations have joined arms to kind the All India Council of Association of MSMEs (AICA) so as to take care of points of the sector hit laborious by the pandemic.

In a illustration to the prime minister, AICA stated that the sector is going through big challenges as a consequence of erosion of working capital on account of big rise in prices of raw supplies like metal, iron ore, aluminum, copper, plastics, PVC, paper, and chemical compounds.

“We understand this volatile situation is temporary in nature. However, it can cause permanent damage to the MSME sector. In spite of a drop in demand due to lockdown, prices are on the upswing, particularly steel, pig iron and other raw materials, too,” it stated.

It claimed that metal and different base material producers are declaring 10-20 instances larger revenue whereas all of the MSMEs are on the verge of extinction.

The affiliation has prompt eight factors to beat the disaster and it consists of safety in opposition to escalation in prices for some interval; public sector enterprises have to be instructed to just accept cancellation of orders from MSMEs with no penalty/ black itemizing; a system needs to be derived for value escalation; and quota for MSMEs at concessional value.

It stated that the federal government ought to enable import of all metal supplies based mostly on price and high quality necessities at zero import responsibility and no anti-dumping; and banning the export of iron ore and metal merchandise.

It additionally really useful that MSMEs, below authorities contract and suppliers to PSU, needs to be allowed to revise their value with contemporary quote and for all finalised authorities and PSU provides, they need to be permitted to invoke escalation clause and requote.

“If the MSMEs get crippled and choked this fashion, as a consequence of spiraling value rise of raw supplies, it can solely discourage entrepreneurship, in the end resulting in failure of the federal government’s goal of Atma Nirbhar Bharath.

MSMEs account for 30 per cent of India’s GDP, 45 per cent of manufacturing output, 48 per cent of whole exports, and make use of over 11 crore folks. There are about 63.5 million MSMEs within the nation

[MSME's Seek PM's Intervention to Control Steel Prices in India](#)

All India Council of Association of MSMEs, formed recently to represent around 170 Micro, Small & Medium Enterprises associations, has written to the India's Prime Minister Mr N Modi urging the government to intervene after a massive spike in key raw material prices hurt MSMEs. AICA has said that there is erosion in the working capital of MSMEs due to a huge rise in prices of raw materials like steel, iron ore, aluminum, copper, plastics, PVC, paper and chemicals. It further said that the open market is not accepting the resultant effect of the increase in the price of raw materials. AICA further said that the raw materials are being blocked and stocked in the supply chains. AICA said "We understand this volatile situation is temporary in nature, however can cause permanent damage to the MSME sector. In spite of drop in demand due to lockdown, prices are in upswing, particularly steel, pig iron and other raw materials too. It is obvious that there is a cartel created by steel manufacturers, which include private and public sector undertakings. Steel is an essential commodity for overall development of the country and exports should be as per availability of surplus. Steel and other base material manufacturers are declaring 10 to 20 times higher profit whereas all the MSMEs are on the verge of extinction. This clearly shows that the corporate and PSU commodity companies are profiting at the expense of MSMEs."

AICA said "Easy mechanism to hedge steel for all MSMEs, National Small Industries Corporation should act as a consolidation agency. They should be in a position to consolidate and hedge overall steel quantity in the market place. This kind of hedging should be possible for a period of one year."

AICA further suggested that the public sector enterprises must be instructed to accept cancellation of orders from MSMEs without putting a penalty or blacklisting them as an event of increase in the prices of steel is not within the control of the MSMEs. The industry body also called out for the PSUs to publish steel prices on a quarterly basis and urged that the price should be maintained for a minimum of 3 months at a stretch. It suggested "PSUs like SAIL and Vizag steel should focus on MSMEs for supply of materials on priority basis and all steel industries should allocate at least 40% of their production for Indian MSMEs."

It has also questioned the fixation of benchmark for steel industry pricing based on international market prices rather than the demand and supply situation in the country.

The MSME sector in India is said to be the second-largest employment creator after agriculture, providing employment to an estimated 11 crore people. It contributes to 30% of the GDP and accounts for 48% of the exports. As a result of the consecutive lockdowns in 2020 and 2021, the MSME sector has been facing a massive liquidity and supply crunch, shortage of labour and non-payment of dues.

[MSME body AICA calls for immediate intervention from Prime Minister Narendra Modi – Here’s why](#)

An umbrella organization for micro, small and medium-sized enterprises AICA on Wednesday called for immediate intervention by Prime Minister Narendra Modi on the rise in the prices of raw materials such as steel, iron ore, aluminum, copper, plastics and paper. No less than 170 industry associations have joined together to form the All India Council of Association of MPMEs (AICA) to address issues in the sector hit hard by the pandemic. See Zee Business Live TV Streaming below: In a statement to the Prime Minister, the IAIS said the sector faces enormous challenges due to the erosion of working capital due to the huge increase in the prices of raw materials like steel, iron ore, aluminum, copper, plastics, PVC, paper and chemicals. “We understand that this volatile situation is temporary in nature. However, it can cause permanent damage to the MSME sector. Despite a drop in demand due to containment, prices are on the rise, especially steel, cast iron and other raw materials, too,” he said. He claimed that manufacturers of steel and other basic materials are reporting profits 10 to 20 times higher as all MSMEs are on the verge of extinction. The association suggested eight points for overcoming the crisis and includes protection against price escalation for a certain period; public sector companies should be instructed to accept cancellation of MSME orders without penalty / blacklist; a formula should be derived for the price escalation; and a quota for MSMEs at a concessional price. He said the government should allow the import of all steel materials on the basis of cost and quality requirements at zero import duty and no anti-dumping; and ban the export of iron ore and steel products. It also recommended that MSMEs, government contracted and PSU suppliers, be allowed to revise their price with a new quote and that for all government supplies and PSUs finalized, they be allowed to invoke the escalation clause and redo. a quote. “If MSMEs are crippled and suffocated in this way, due to skyrocketing commodity prices, it will only discourage entrepreneurship, ultimately leading to the failure of Atma Nirbhar’s government goal. Bharath. “We therefore urge the government to take concrete measures to control the prices of raw materials,” he said. Key team members are Coimbatore District Small Industries Association Chairman MV Ramesh Babu, Arise Chairman Yogesh Pawar Chairman of Engineering Manufacturers Association of India from the South, KV Karthik, and the chairman of the Ludhiana Hand Tools Association, SC Ralhan. MSMEs account for 30 percent of India’s GDP, 45 percent of manufacturing output, 48 percent of total exports and employ over 11 million people. There are around 63.5 million MSMEs in the country.

Around 170 industry associations have converged to form the umbrella All India Council of Association of MSMEs (AICA). The body was constituted to provide a grievance redressal forum to sectors hit hard by COVID-19.

AICA confirmed that although the pandemic has impacted every industry in the nation, MSMEs have by far been the most vulnerable to its repercussions. Further, the steep rise in raw material and labour prices pose a serious threat to their survival.

“We have been working on combining these associations under one umbrella since the first lockdown was imposed by the Government of India. We will be sharing the draft recommendations with the concerned ministries to look into the points and address the issues,” the AICA statement added.

The core team comprises MV Ramesh Babu, President, CODISSIA (Coimbatore District Small Industries Association), KV Karthik, President, SIEMA (Southern India Engineering Manufacturers' Association) and Yogesh Pawar, Chairman, Arise.

A body that groups micro, small and medium-sized companies, AICA, on Wednesday sought the immediate intervention of Prime Minister Narendra Modi on the increase in the prices of raw materials such as steel, iron ore, aluminum, copper , plastics and paper.

Up to 170 industry associations have come together to form the All India MSMEs Association Council (AICA) to address the issues in the sector hardest hit by the pandemic.

Watch Zee Business Live TV broadcast below:

Representing the prime minister, AICA said that the sector faces enormous challenges due to the erosion of working capital due to the huge increase in the prices of raw materials such as steel, iron ore, aluminum, copper, plastics, PVC, paper and products. chemicals.

“We understand that this volatile situation is temporary in nature. However, it may cause permanent damage to the MSMEs sector. Despite a drop in demand due to the lockdown, prices are on the rise, particularly steel, pig iron and other raw materials, too, “it said.

He claimed that steel and other base material manufacturers are reporting 10 to 20 times higher profits, while all MSMEs are on the brink of extinction.

The association has suggested eight points to overcome the crisis and includes protection against price escalation for some period; public sector companies should be instructed to accept the cancellation of orders from MSMEs without sanctions or blacklists; a formula for price escalation should be derived; and quota for MIPYMES at concessional price.

He said the government should allow the importation of all steel materials based on cost and quality requirements with zero import duties and no anti-dumping measures; and ban the export of iron ore and steel products.

It also recommended that MSMEs, under contract with the government and USP providers, should be allowed to revise their price with a new quote and for all government supplies and completed USPs, they should be allowed to invoke the escalation clause and requote.

“If MSMEs are crippled and suffocated in this way, due to skyrocketing commodity prices, it will only discourage entrepreneurship and ultimately lead to the failure of the Atma Nirbhar Bharath government’s goal.

“Therefore, we urge the government to take concrete measures to control the prices of raw materials,” he said.

Members of the core team include Coimbatore District Small Industries Association President MV Ramesh Babu, Arise President Yogesh Pawar, South India Engineering Manufacturers Association President KV Karthik, and to the President of the Ludhiana Hand Tools Association, SC Ralhan.

NEW DELHI: As many as 170 industry associations have joined hands to form All India Council of Association of MSMEs AICA) in order to deal with issues of the sector hit hard by the pandemic.

The pandemic has affected every industry in the country and MSMEs are hit the most due to frequent lockdowns, AICA said in a statement. From manpower to raw material prices, all have been posing challenges to the existence of micro, small and medium enterprises, it added.

“AICA today announced that 170 industry associations have joined together to address post COVID issues faced by two lakh MSMEs across India,” it said. MSMEs in India add to about 30 per cent of the overall employment generated in India and contribute about the same to the overall GDP of the country.

“We have been working on combining these associations under one umbrella since the first lockdown was imposed by the Government of India. We will be sharing the draft recommendations with the concerned ministries to look into the points and address the issues,” it added.

The core team members include M V Ramesh Babu, President, CODISSIA (Coimbatore District Small Industries Association), Yogesh Pawar, Chairman, Arise and KV Karthik, President, SIEMA (Southern India Engineering Manufacturers' Association)

[MSMEs in TN worried over rising raw material costs](#)

CHENNAI: The rise in prices of steel, iron ore, aluminum, copper, plastics, paper and other raw materials has sparked concern among the MSME sector as they have sought the intervention of Prime Minister Narendra Modi.

All India Council of Association of MSMEs, created by around 170 MSME associations covering approximately 2,00,000 industries pan-India, stated in a release that steel and other base material manufacturers are declaring 10 to 20 times higher profit whereas MSMEs are on the verge of extinction. This clearly shows that corporate and public sector unit commodity companies are profiting at the expense of MSMEs.

“This volatile situation is temporary in nature, however can cause permanent damage to the MSME sector. In spite of a drop in demand due to lockdown, prices are in upswing, particularly steel, pig iron and other raw materials too. It is obvious there is a cartel created by steel manufacturers, which include both private and public sector undertakings. Steel is an essential commodity for overall development of the country and exports should be as per availability of surplus,” said a release.

AICA has urged the Union government to allow National Small Industries Corporation Limited (NSIC) to hedge steel for all MSMEs. “They should be in a position to consolidate and hedge overall steel quantity in the market place. This kind of hedging should be possible for a period of one year (as rate contract extends for a year). NSIC should make bulk bookings of steel at a price with the option of taking deliveries within 12 months as fixed,” AICA said in a statement.

Similarly, public sector units like Steel Authority of India and Vizag Steel should focus on MSMEs for supply of materials on priority basis and all steel industries should allocate at least 40 per cent of their production for Indian MSMEs, the release added.

NEW DELHI: An umbrella body for micro, small and medium enterprises AICA on Wednesday sought immediate intervention of Prime Minister Narendra Modi on rising prices of raw materials such as steel, iron ore, aluminum, copper, plastics and paper.

As many as 170 industry associations have joined hands to form the All India Council of Association of MSMEs (AICA) in order to deal with issues of the sector hit hard by the pandemic.

In a representation to the prime minister, AICA said that the sector is facing huge challenges due to erosion of working capital on account of huge rise in prices of raw materials like steel, iron ore, aluminum, copper, plastics, PVC, paper, and chemicals.

“We understand this volatile situation is temporary in nature. However, it can cause permanent damage to the MSME sector. In spite of a drop in demand due to lockdown, prices are on the upswing, particularly steel, pig iron and other raw materials, too,” it said.

It claimed that steel and other base material manufacturers are declaring 10-20 times higher profit whereas all the MSMEs are on the verge of extinction.

The association has suggested eight points to overcome the crisis and it includes protection against escalation in prices for some period; public sector enterprises must be instructed to accept cancellation of orders from MSMEs with no penalty/ black listing; a formula should be derived for price escalation; and quota for MSMEs at concessional price.

We understand this volatile situation is temporary in nature. However, it can cause permanent damage to the MSME sector. In spite of a drop in demand due to lockdown, prices are on the upswing, particularly steel, pig iron and other raw materials, too.AICA

It said that the government should allow import of all steel materials based on cost and quality requirements at zero import duty and no anti-dumping; and banning the export of iron ore and steel products.It also recommended that MSMEs, under government contract and suppliers to PSU, should be allowed to revise their price with fresh quote and for all finalised government and PSU supplies, they should be permitted to invoke escalation clause and requote.

“If the MSMEs get crippled and choked this way, due to spiraling price rise of raw materials, it will only discourage entrepreneurship, ultimately leading to failure of the government’s objective of Atma Nirbhar Bharath.

“We, therefore, urge the government to take concrete steps to reign in raw material prices,” it said.

From manpower to raw material prices, all have been posing challenges to the existence of micro, small and medium enterprises.

[MSME body AICA writes to PM, seeks intervention as price of raw material rises](#)

As a result of the consecutive lockdowns in 2020 and 2021, the MSME sector has been facing a massive liquidity and supply crunch, shortage of labour and non-payment of dues.

All India Council of Association of MSMEs (AICA), representing around 170 MSME associations, has written to the prime minister urging the government to intervene after a massive spike in key raw material prices hurt MSMEs.

In its letter, AICA has said that there is an erosion in the working capital of MSMEs due to a huge rise in prices of raw materials like steel, iron ore, aluminum, copper, plastics, PVC, paper and chemicals.

It further said that the open market is not accepting the resultant effect of the increase in the price of raw materials. AICA further said that the raw materials are being blocked and stocked in the supply chains.

"We understand this volatile situation is temporary in nature, however can cause permanent damage to the MSME sector. In spite of drop in demand due to lockdown, prices are in upswing, particularly steel, pig iron and other raw materials too," AICA said in a statement.

Between April 2020 and June 2021, the price of copper has surged 109 percent from Rs. 345 to Rs 745 while the price of steel plates have jumped 82 percent from Rs 45 to Rs 82 during the same period.

The industry body has suggested hedging of steel for the MSMEs in order to provide protection against escalation for some period.

"Easy mechanism to hedge steel for all MSMEs, National Small Industries Corporation (NSIC) should act as a consolidation agency. They should be in a position to consolidate and hedge overall steel quantity in the market place. This kind of hedging should be possible for a period of one year," it said.

AICA further suggested that the public sector enterprises must be instructed to accept cancellation of orders from MSMEs without putting a penalty or blacklisting them as an event of increase in the prices of steel is not within the control of the MSMEs.

The industry body also called out for the PSUs to publish steel prices on a quarterly basis and urged that the price should be maintained for a minimum of 3 months at a stretch.

"PSUs like SAIL and Vizag steel should focus on MSMEs for supply of materials on priority basis and all steel industries should allocate at least 40 percent of their production for Indian MSMEs," AICA said in its suggestions.

As a result of the consecutive lockdowns in 2020 and 2021, the MSME sector has been facing a massive liquidity and supply crunch, shortage of labour and non-payment of dues.

The MSME sector in India is said to be the second-largest employment creator after agriculture, providing employment to an estimated 11 crore people. It contributes to 30 percent of the GDP and accounts for 48 percent of the exports.

[Industry associations endorse AICA call to Centre](#)

Industry associations representing MSME sector in the region look for a positive response from the Central government following deliberations conducted by All India Council of Association of MSMEs on Wednesday on problems faced by industries, with particular reference to rapid escalation in the cost of steel and other construction inputs.

The AICA, representing around 170 MSME associations covering approximately more than two lakh industrial units across the country, made a representation to the Central government seeking immediate intervention for sustenance of the sector, and has forwarded copies of the same to Union Ministers of Finance and Corporate Affairs, MSME, Steel, Commerce and Industry, and Coal and Mines.

Representatives of Tiruchi District Tiny and Small Scale Industries' Association, Nagapattinam District Small and Tiny Industries' Association, Tiruvarur District Small and Tiny Industries' Association, BHEL Small Industries' Association, and Valavandankottai Industrial Manufacturers' Association took part in the discussion and sought speedy solutions for survival of the MSME sector, in the backdrop of many industries turning sick.

The escalation in the cost of steel during the lockdown period to the extent of 60% to 70% was unprecedented, threatening the very sustainability of manufacturing units, R. Ilango, president of Tiruchi District Tiny and Small Scale Industries' Association, said.

BHEL SIA has, through a forum for raw materials, conveyed the difficulties being faced by the fabrication sector, BHEL SIA president Rajappa Rajkumar said.

According to V. Ramachandiran, president of Nagapattinam District, Small and Tiny Industries' Association, the reluctance of banks to implement interest subvention scheme of Reserve Bank of India was deplorable.

In its representation to the Prime Minister, AICA has pointed out that the steep hike in the price of raw materials across all sectors, despite low consumption and subsequent drop in production by MSMEs has led to loss of employment and depreciation in the value of rupee.

“It is obvious that there is a cartel created by steel manufacturers, which include private and public sector undertakings. Steel is an essential commodity for overall development of the country and exports should be as per availability of surplus. Steel and other base material manufacturers are declaring 10 to 20 times higher profit whereas all the MSMEs are on the verge of extinction. This clearly shows that the corporate and PSU commodity companies are profiting at the expense of MSMEs,” the AICA said.

It has questioned the fixation of benchmark for steel industry pricing based on international market prices rather than the demand and supply situation in the country.

Seeking an appointment with Prime Minister Narendra Modi to highlight the precarious situation of MSMEs, AICA cautioned that the spiralling rise in prices of raw materials will only discourage entrepreneurship and failure of the government's objective of Atmanirbhar Bharat.

[MSME Calls for Immediate Intervention of Prime Minister Modi – Jioforme](#)

Wednesday's micro, small and medium-sized enterprise AICA's affiliated organization Prime Minister Narendra Modi About rising prices of raw materials such as steel, iron ore, aluminum, copper, plastic and paper.

170 industry groups have collaborated to form the MSME Council of Micro, Small and Medium (AICA) to address issues in the sector that have been hit hard by the pandemic.

On behalf of the Prime Minister, AICA is steel, iron ore, aluminum, copper, plastic, PVC, paper and chemicals.

"I understand that this instability is temporary, but it can cause permanent damage. MSME sector. Despite the drop in demand due to the blockade, prices of steel, pig iron and other raw materials in particular are on the rise. "

Steel and other base material makers have declared 10 to 20 times more profit, but all MSMEs have claimed to be endangered.

The association has proposed eight points to overcome the crisis, which includes protection against price increases over a period of time. Public sector companies must be instructed to accept cancellation of orders from MSME without penalty / blacklist. We need to come up with a formula for price increases. Allocation of MSMEs at concessional prices.

The government said it should allow the import of all steel materials based on cost and quality requirements, without zero import tariffs and anti-dumping. Exports of iron ore and steel products are banned.

MSME should also be allowed to modify prices with new quotes under contracts with governments and suppliers to PSUs, calling escalation clauses for all final government and PSU supplies. Should be allowed to re-estimate.

"If MSMEs become so dysfunctional and choked due to the sharp rise in raw material prices, they will only hinder entrepreneurship and ultimately lead to the failure of the government's goal of Atma Nirbhar Bharath.

"Therefore, we urge the government to take concrete steps to control raw material prices," he said.

Core team members include MV Ramesh Babu, Chairman of the Coimbatore SME Association, Yogesh Pawar, Chairman of Arise, KV Karthik, Chairman of the South Indian Engineering Manufacturers Association, and SC Ralhan, Chairman of the Ludhiana Hand Tools Association.

MSME accounts for 30% of India's GDP, 45% of manufacturing output and 48% of total exports, and employs more than 1.1 billion people. There are about 63.5 million MSMEs in the country.

छोटेउद्यमोंकाबड़ासंकट

सरोजकुमार

सूक्ष्म, लघुऔरमझौलेउद्यम (एमएसएमई) अर्थव्यवस्थाकीरीढ़कहेजातेहैं।यानीअर्थव्यवस्थाकीमजबूतीकेलिएएमएसएमईकामजबूतहोनाअनिवार्यहै।लेकिनभारतमेंअर्थव्यवस्थाकीरीढ़यानीएमएसएमईकमजोर, कुपोषितऔरउपेक्षितहै।अर्थव्यवस्थापरइसकाअसरस्पष्टतौरपरदिखभीरहाहै।जबभीकभीकिसीझटकेसेकमजोररीढ़हिलती-डुलतीहै, अर्थव्यवस्थानिढाल-सीपड़ीदिखाईदेतीहै।नोटबंदी, जीएसटीऔरअबकोरोनामहामारीकेझटकेइसकेउदाहरणहैं।लेकिनअर्थव्यवस्थाकेइसकमजोरक्षेत्रकोमजबूतकरनेकेलिएअभीतककामकम, बातेंहीअधिकहुईहैं।कमजोर, कुपोषितऔरउपेक्षितश्रेणीकेऐसेउद्यमोंकीसंख्यादेशमेंकोईछहकरोड़तैतीसलाखहैऔरबुरीहालतमेंभीयेदेशकेसकलघरेलूउत्पाद (जीडीपी) मेंलगभगतीसफीसदकायोगदानकरतेहैं।देशकीपैंतालीसफीसदसेअधिकश्रमशक्तियहंरोजगारपातीहै।यदिअर्थव्यवस्थाकेइसक्षेत्रकोथोड़ा मजबूत करदियाजाएतोदेशकीतस्वीरबदलसकतीहै।

सरकारीपरिभाषामेंएमएसएमईकानिर्धारणनिवेशराशिऔरकारोबारराशिकीसीमासेहोताहै।एककरोड़रुपएतकनिवेशऔरपांचकरोड़रुपएतकसालानाकारोबारकरनेवालाउद्यमसूक्ष्मश्रेणीमेंआताहै।वहींदसकरोड़रुपएतकनिवेशकेसाथपचासकरोड़रुपएतकसालानाकारोबारकरनेवालेउद्यमको लघुश्रेणीमेंखागयाहै।जबकिपचासकरोड़रुपएतकनिवेशऔरसालानाढाईसौकरोड़रुपएतककाकारोबारकरनेवालेउद्यमकोमध्यमश्रेणीकामानाजा ताहै।यानीढाईसौकरोड़रुपएकारोबारकेबादकारपोरेटजगतकीसीमाशुरूहोजातीहै।

एमएसएमईक्षेत्रकेउद्यमकीसारीचुनौतियोंकाएकसाथसामनाकरतेहैं।इनमेंभीसूक्ष्मउद्यमोंकीचुनौतीज्यादाबड़ीहै।कईबारतोसूक्ष्मउद्यमकीसीएकउद्यमद्वारासंचालितकिएजातेहैं।मजदूरसेलेकरमैनेजरतककीभूमिकाएकअकेलाव्यक्तिहीनिभाताहै।येउद्यमीकमपढ़े-लिखेहोतेहैंऔरआधुनिकप्रौद्योगिकी, आधुनिकबाजारकीरीति-नीतिसेअपरिचितहोतेहैं।ऐसेउद्यमवित्तीयसमस्या, प्रौद्योगिकीयसमस्या, कुशलश्रमिकोंकीअनुपलब्धताऔरउत्पादोंकेविपणनकीसमस्यासेजूझतेरहतेहैं।

इनतमामसमस्याओंकेकारणयेउद्यमउसगुणवत्ताकेउत्पादनहींबनापाते, जिसगुणवत्ताकेउत्पादबड़ेउद्यमबनानेमेंसक्षमहोतेहैं।सूक्ष्मउद्यमोंकेउत्पादमहंगेभीहोतेहैं।पूंजीकेअभावमेंयेअपनेउत्पादोंकाबाजारमेंप्रचार-प्रसारभीनहींकरपाते।खराबगुणवत्ता, अधिककीमतऔरप्रचार-प्रसारकेअभावकेकारणसूक्ष्मउद्यमोंकेउत्पादबाजारमेंटिकनहींपाते।इनकेलिएअपनीलागतनिकालपानाकठिनहोजाताहै।स्वयंकोजिंदारखनेकीजद्दोजहदकेबीचनोटबंदी, जीएसटीऔरकोरोनामहामारीजैसेझटकेइन्हेंतोड़कररखदेतेहैं।यहांगौरकरनेवालीबातयहहैकिदेशकेएमएसएमईक्षेत्रमें 99.4 फीसद (छहकरोड़तीसलाख) हिस्सासूक्ष्मउद्यमोंकाहै।लघुउद्यम 0.52 फीसदयानीतीनलाखइकतीसहजारऔरमध्यमउद्यमोंकीहिस्सेदारीमात्र 0.007 फीसदयानीपांचहजारहीहै।
